

Name: \_\_\_\_\_

**Year 5 Spelling**  
**Sequence 5**

Creating word families from a single root word	When you can spell a root word, you can use affixes (prefixes & suffixes) to create new words from the same 'family'. Example: appreciate – appreciated, appreciative, unappreciated
--	--

**Task One**

Create a word family using each root word. In the grid below, there are some examples of prefixes and suffixes that might help. An example has been done for you.

pre-	sub-	un-	ex-	over-	re-	in-	mis-	dis-	co-
-ed	-ing	-ment	-ness	-less	-ly	-tion	-ant	-able	-ive

friend	happy	attach
<i>friendship</i>		
<i>friendly</i>		
<i>unfriendly</i>		
<i>befriend</i>		
<i>friendliness</i>		

create	value	habit

**Star Challenge**

Select **three** prefixes. Explain what each of your chosen prefixes means.

(For example, the prefix **trans** means **across or through**.)
